

SENTRI

Protect what matters

Home Security CAGR **77%** in revenue.
90% American cited it as leading benefit.

We're on a mission to turn home into a true smart home by redefining the way home interacts and cooperates.

Sentri

Next Generation Smart Home

Knowing more about your home just got easier,
All-in-one home security lets you monitor and stay in control.

Know Your Home

HD Camera

Night Vision

Microphone

Speaker

Motion Detector

Thermometer

Air Quality Sensor

Light Sensor

Humidity Sensor

Accelerometer

Real-time Check-in

Monitor the state of your home, anytime anywhere

WATCH LIVE

Be home anywhere with live HD streaming video -- including audio.

MOTION

Stay in the know with real-time alerts + recorded video clips when activity is detected.

TOUCHSCREEN CONTROL

Everything you need, right at your fingertips. Check the weather, play back video -- straight from your Senti.

SIREN

Sound the alarm with a built-in siren you can trigger, straight from your phone.

NIGHT VISION

See in the dark with infrared night vision that automatically turns on when you need it.

KNOW YOUR HOME

Not just a safer home, but a healthier home. View your home's vitals, both current and the last 30 days.

What our customer says...

"It's incredibly easy to set up and the features are perfect for what I'm looking for." AARON S., NEW YORK

"I'm really impressed by the elegant design and it works great as a home monitoring system." TRAVIS D., CALIFORNIA

"Setup was super easy -- unbox and plug it in. It's a really solid product." CORY P., UTAH

"Best Smart Home Hub, we feel much safer knowing Senti is there to monitor for us." ["It's great being able to see it whenever I want"](#) - Amazon Customer

"My problem with security cameras is it's a freaking camera that's spying on you like big brother. Not only do I find that creepy, it also tips a burglar off in the case that someone actually does come into my humble abode.

Enter Senti -- it doesn't actually look like a security camera (.....) AND even comes with a cool looking touchscreen. It's fun to poke around at the weather, humidity, and stuff, and I finally have a much needed clock in my living room. I can set the mood with a flick of the screen and change up the background." Danial Lee, Kickstarter backer

Milestones

Sentri was one of the ten startups selected to join Microsoft IoT accelerator out of 400 candidates. Steven Guggenheimer, corporate vice president, said this accelerator helps new startup to create more intelligent and safe smart home product.

Sentri was picked by Btrax as one of the most promising and diverse startups in the IoT space.

Sentri's founder Yen Tung, was elected as one of the USA 2014 M2M Pioneer Award candidates.
