

say it in 3D

Bevel is the world's first mobile attachment capable of capturing **Genuine 3D™** photographs on any smartphone or tablet.

Genuine 3D™ Photography

Genuine 3D™ photographs are like freezing a moment in time. The photos can be rotated, turned into animated GIFs and viewed from multiple angles. You can also add an image of the background behind the 3D photo. They can be shared through Cashew and the Bevel app directly to sites like Twitter, Facebook, Tumblr, Wordpress blogs, Instagram, Pinterest, etc.

CAPTURE REAL 3D
360 degrees, true to scale models of people, places and things
