

# ATCA<sup>TM</sup> ELITE

## PRODUCT OVERVIEW

# INTRODUCTION

ENGINEERED TO MEET 21ST CENTURY MOBILE  
SECURITY CHALLENGES

GATCA™ Elite's built-in **codete**™ security platform is strategically designed to secure the user's data, communication, and privacy against a variety of threats. GATCA™ Elite's every detail is aesthetically pleasing, thus providing the perfect balance of style and security without compromise.

GATCA™ Elite features a rounded edge, 5.5 inch display touch screen with breathtaking resolution and is built with a powerful 13 megapixel camera that allows users to take high quality pictures. GATCA™ Elite encompasses MT6735 1.3GHZ Octa Core processor that delivers amazing gaming Experience, speedy application and web page loading.

# WORLD'S FIRST CYBERPHONE

## **GATCA™ Elite**

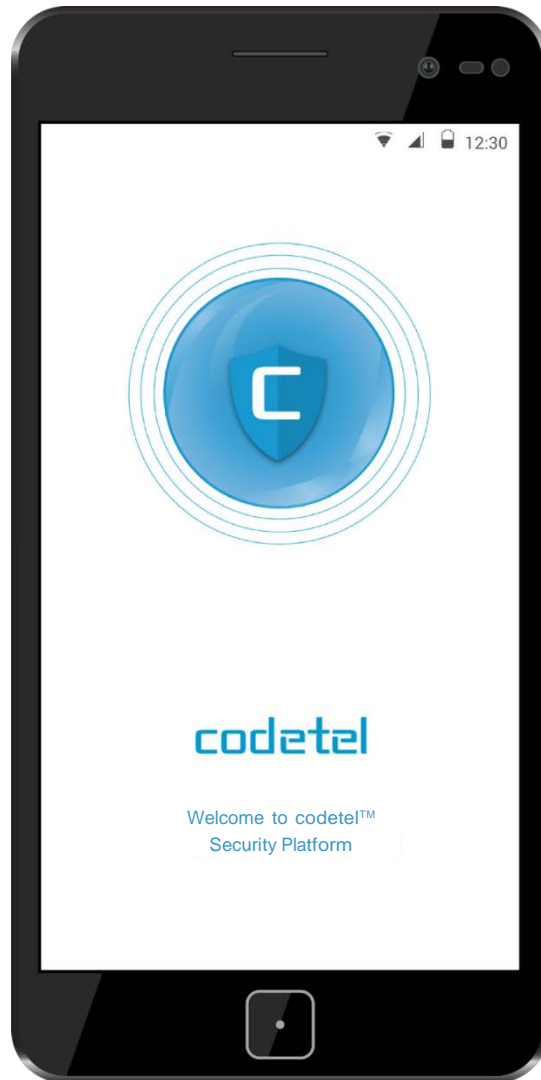

The GATCA™ Elite cyberphone brings together a cutting edge combination of biometric and encryption security features to the global wireless marketplace.

## SIM LOCK

COIN™ SL locks down your phone when the SIM card is removed or when an unfamiliar one is reinserted, preventing invasion of personal information in the event of theft or loss.

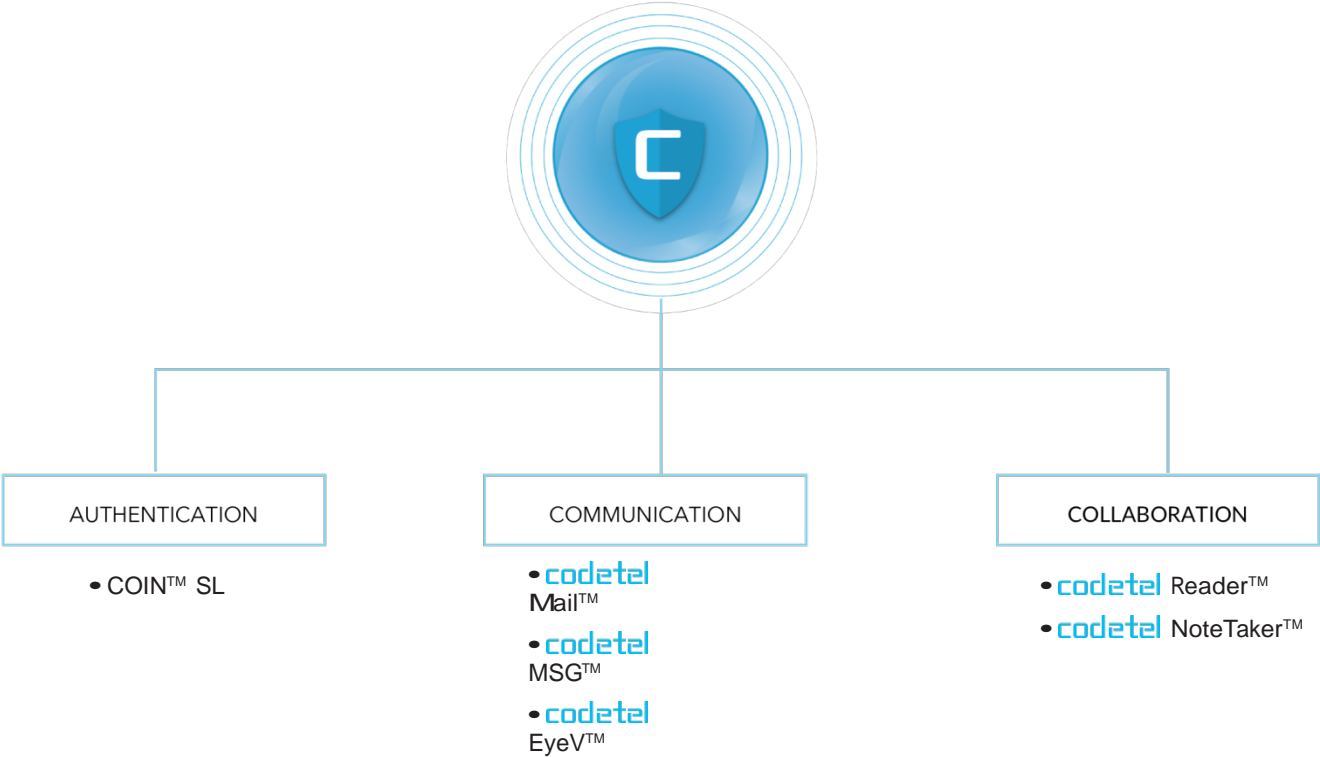

# SECURITY ENABLED APPS

**codetel™** Security Apps are embedded within all GATCA™ Elite cyberphones.

**codetel™** Security Apps offer multiple forms of security authentication features to safeguard users' personal and professional digital assets.

# codetel SECURITY APPLICATIONS:

# codetel CORE APPS

(ULTIMATE COMMUNICATOR)

## codetel Mail™

A multi-platform, secured email application that uses advanced end-to-end encryption technology to protect users' emails and personal information in transit.

## codetel MSG™

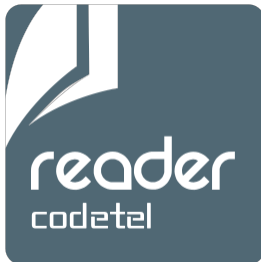

A secure mobile messenger application that allows users to send and receive encrypted text messages through a secure VPN tunnel.

## codetel EyeV™

A secure video calling and messaging mobile application that uses advanced encryption technology to safeguard the users' communications in transit.

# SECURE COLLABORATION

## **codetel** Reader™

A complete folder and document management tool that enables the user to open, save, and encrypt documents and files. **codetel**

Reader™ supports PDF, Word, Excel, PowerPoint, Zip, PNG, JPG, Text, RTF, and MP4 files. All encrypted stored files and folders are stored on a highly resilient cloud environment, which is accessible anywhere and anytime with a valid security key.

## **codetel** NoteTaker™

A notetaking application that provides users with a platform, which captures, transforms, and secures ideas with state-of-the-art handwriting recognition, keyboard correction, and voice recognition software.

# TECHNICAL SPECIFICATIONS

## DISPLAY

5.5" IPS 1280 X 720

## DIMENSIONS

142.6x70.7x7.1mm

## PLATFORM

MT6735 1.3GHZ Octa Core

## RAM/ROM

2G / 32G  
up to 32GB (MicroSD)

## CAMERA

13M Rear & 5M Front

## VIDEO

1080p Full HD

## OPERATING SYSTEM

V5.1w/direct OTA updates

## BATTERY

3000mA  
Quick Charge™ 2.0

## SIM

Dual SIM

## SPEED

EDGE/HSPA+/CAT4

## NETWORKS

2G (Quad Band)  
3G (Band 1/2/4/5)  
4G LTE (FDD Band 2/4/5/17)

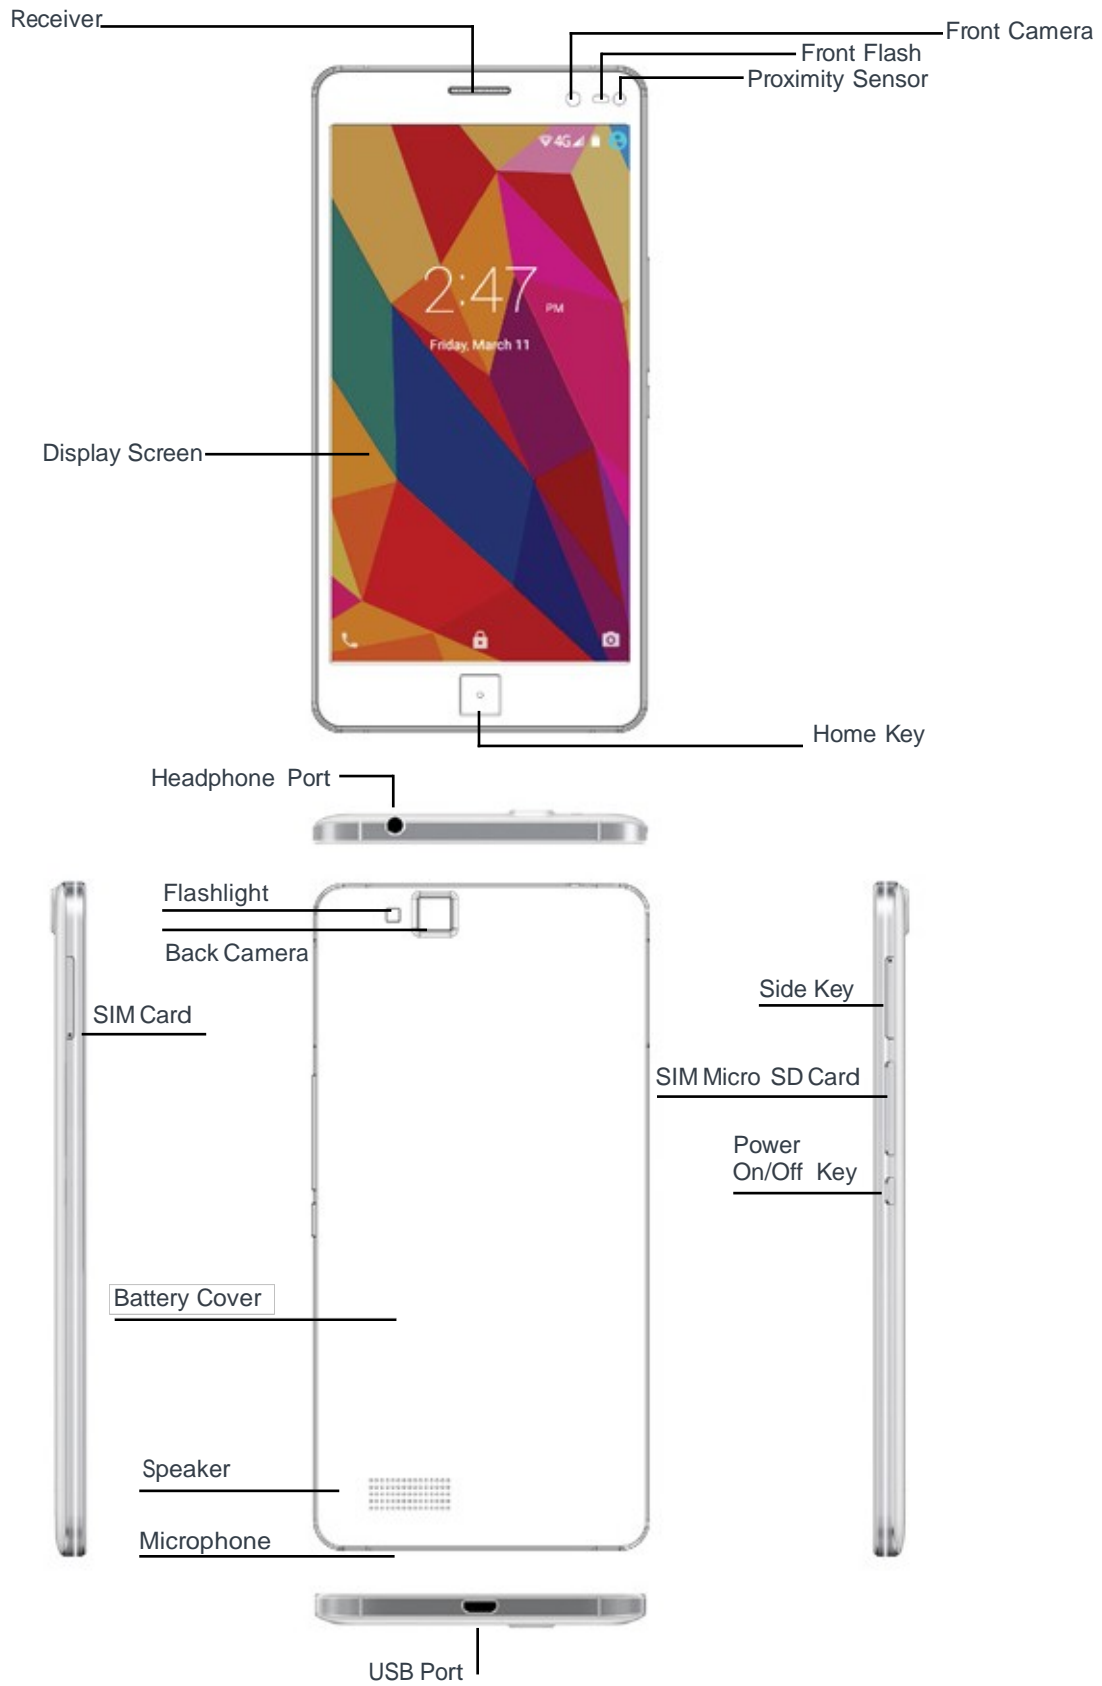

## Wi-Fi

802.11 B/G/N

## PRELOADED APPS

[codetel](#) COIN™ SL  
[codetel](#) Mail™
