

BANDIT™

CORD CLIP / LAPTOP REST

The go-to cord clip for laptops and phones. Made of flexible, microbe-resistant silicone with amazing shape-memory, BANDIT will quickly organize almost any cord that powers and syncs your devices.

There's more.

BANDIT slides under the laptop to air-cool the CPU and create a more comfortable typing angle. It's a perfect rest for the phone too – hygienic, easy to pick up and gently angled for better screen visibility.

LIFT™

CREATE A DUAL DISPLAY

LIFT brings together two amazing devices to create one seamless user experience. Talk to friends and colleagues on FaceTime, monitor messages or keep an eye on social media. It's all made easy while still focusing on your laptop. LIFT is designed with carefully tested pressure pads to secure each device securely.

Made with the same high-quality silicone found in medical devices, LIFT is also safe for your screens, microbe-resistant, heat-resistant, hypoallergenic and always returns to its original shape.

EKKO™

EKKO is the phone dock that keeps the conversation going when you're getting ready, cooking or just need your hands free.

The natural amplifier provides up to 10 decibels more sound, while the innovative shelf lets the sound out and the charging cord in.

So the next time you have to say goodbye. Don't. You have EKKO.

EKKO uses high-quality 3M adhesives to affix to smooth surfaces throughout the home including mirror, glass and tile.

TWIG_{2.0}

NEXT GENERATION CORD WRAP

If you're looking for the quickest solution for tangled earphone cords without the hassle of winding and unwinding, then TWIG is for you.

Just slide TWIG up the cord to the two buds and, presto, they will not tangle.

Scrunch them, put them in your pocket or stow them at the bottom of your bag - it doesn't matter - they will emerge tangle-free.

And if you prefer a nice neat wrap, TWIG does that too.

ORBIT™

THE iPhone COMPANION

Designed to declutter, ORBIT has three clever solutions for the iPhone in one small accessory that's ideal for home or travel.

ORBIT not only stores the power cord and adapter, this perfect iPhone companion also keeps your phone safely off the floor and mounted to the wall while charging.

From soft and protective contact points on the inside, to a smooth, curved exterior that slides easily into a handbag or pocket, ORBIT is full of surprises that make it a must-have accessory for iPhone users.

ION

PHONE STAND FOR WALLET

ION is the stand big enough to hold a phone, but small enough to slide easily into a wallet. Using a clever slide and lock mechanism, ION flips open to hold almost every phone and phablet in landscape mode.

A silicone rubber tab helps to hold many phones in a portrait position.

ION is the same size as a credit card and just 3mm thick.
